

A photograph of a modern office interior with glass partitions, desks, and office chairs. A large blue geometric overlay is on the left side of the image.

We help leading organizations
around the world prepare for
tomorrow's workspaces – today.

- ✓ Identify how you can provide efficient real estate portfolios and effective workspaces.
.....
- ✓ Implement new workplace strategy changes with iterative adjustment and optimization.
.....
- ✓ Standardize and introduce efficient workplace strategy and friction-reducing applications to reduce costs, increase productivity and improve overall satisfaction.

DISCOVERY

- Our peel and stick battery-powered sensors are easily placed around the workspace to collect anonymous data.
- Our Edge IoT Gateway processes and transmits data to our cloud-based workspace analytics platform, while ensuring privacy.
- Relogix hardware is self-contained, independent of your network, easily moved into different locations and completely unobtrusive.

ANALYSIS

- Our cloud-based data visualizations provide accurate and actionable insight into workspace utilization.
- Relogix algorithms and sensors work together to provide the industry's most accurate data in real time.
- Answer a variety of occupancy questions that fit your unique needs from inside the Relogix platform and/or securely share data with our powerful API to deepen insight.

INSIGHTS

- We've helped Fortune 500 companies around the world identify huge efficiencies, improve employee experience and increase productivity.
- Our team of workspace utilization experts and data scientists can work closely with you to provide custom analytics, reporting and 3rd party integrations.
